Profile

Full-stack web developer (PHP/Symfony, React) with the French state diploma in web and mobile development (EQF level 5, AFPA, 2025). I build and secure web apps and websites: REST APIs, responsive and accessible interfaces, tests, deployment. Former corporal in the French Foreign Legion (2016–2024): rigour, responsibility, deadlines met.

Experience

Freelance web developer — Albert Grabar EI (French micro-business) Since Dec 2025

Paris · remote · private and business clients

- Built my website albert-grabar.com (FR/EN): static site generator in Node.js, SCSS, secure PHP contact form (spam protection, rate limiting), legal and GDPR pages, no tracking cookies.
- Services: audit and launch of AI-built apps (security, Stripe payments, GDPR), small business websites, PHP, Symfony and WordPress fixes.
- Two responsive, accessible demo websites for a tradesperson and a café.

Full-stack developer — TECH NOIR, personal project 2025

Online store · code at github.com/Grabar001

- Complete e-commerce site: Symfony REST API, responsive and accessible React + SCSS front end.
- PHPUnit unit tests for back-end stability; caching made pages about 20% faster.
- Full cycle: design, development, testing and deployment.

Corporal — 2nd Foreign Engineer Regiment, French Foreign Legion 2016 – 2024

Saint-Christol, France

- In charge of managing and maintaining the company armoury: inventories, maintenance, traceability.
- Strict application of safety procedures; organisation of equipment-related operations.
- Discipline, sense of responsibility, fast adaptation to demanding environments.
